

(Macintosh OSX 10.4 and higher)

Living Proof Project Screen Saver - Install

Installation

Step 1: Double click the zip file (*LivingProofProject_screensaver_setup.zip*) and then double click the executable file (*LivingProofProject_screensaver_setup*).

Step 2: Click the “Install” button.

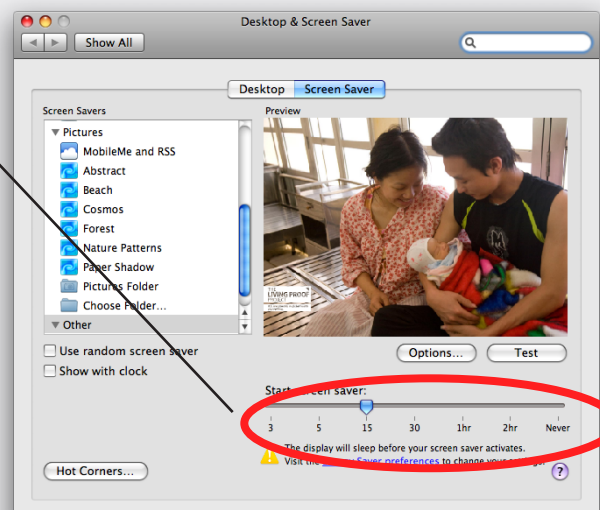

Step 3: Click “Quit”. The screensaver control panel will automatically open.

Step 4: Make sure you adjust the time duration for the screen saver.

Click “Test” to play the screen saver
or
Close the window to save the settings.

(Macintosh OSX 10.4 and higher)

Living Proof Project Screen Saver - Uninstall

Uninstallation (instructions slightly vary by operating system)

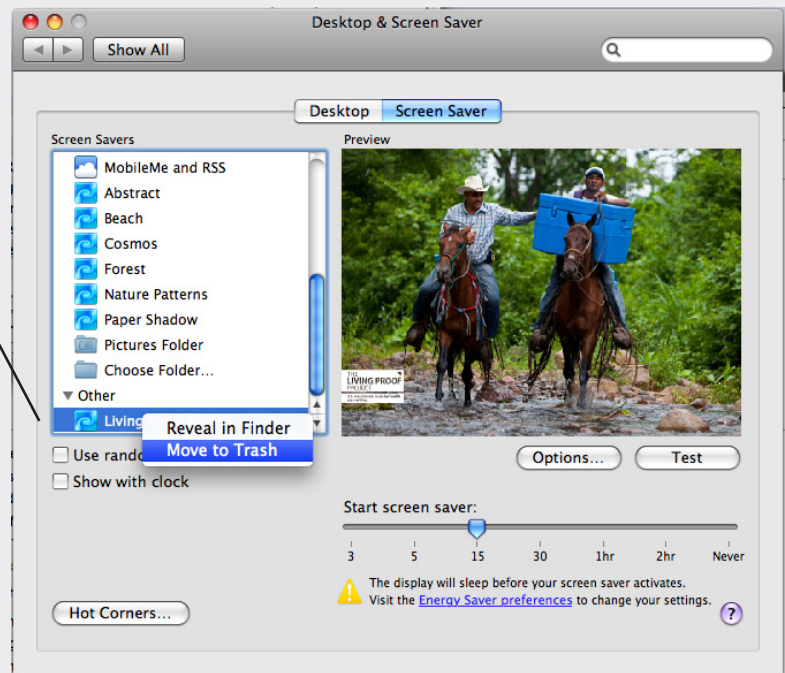

Macintosh screensavers may be removed through the “Desktop and Screen Saver” control panel:

Step 1: Select “**System Preferences...**” in the Apple menu.

Step 2: Select the “**Desktop & Screen Saver**” panel.

Step 3: Select the “**Screen Saver**” tab at the top of the panel.

Step 4: Select the “Living Proof Project” from the list of screen savers.

Step 5: Hold the Control key and click “Living Proof Project”.

Step 6: Select “Move To Trash” to remove the screen saver from your computer.
